

professional tasmanian arborists

We are a locally based Launceston tree surgery business, offering the best in "green tree" care services.

This is achieved through a dedicated and skillful level of knowledge and workmanship, supported by the first carbon neutral, eco-friendly tree surgery service in Tasmania.

professional tasmanian arborists

We cover a wide range of tree and garden services, including soil testing right up to crown thinning of trees.

We have full public liability insurance of up to \$10 million.

Our extensive services cover:

tree pruning - from crown clearing right through to hedge and vine pruning.

tree diagnostics - from soil and disease to improved tree conditions.

tree transplanting - from planting/re-planting to fertilizing.

To view our extensive list of services, please go to our online business website at www.proarb.com.au
